FK MODEL, M-FE - SYSTEM 2022 - FREE-HANGING PLEATED SHADE WITH CORD PULL

FK Model

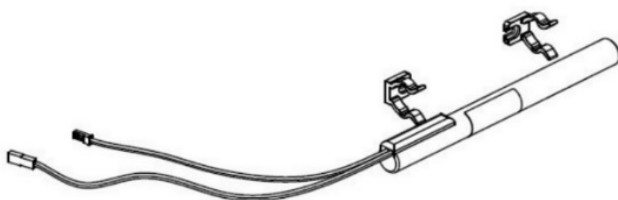

Product Description

Custom-made, free-hanging honeycomb or pleated blind for vertical windows with a fixed top rail and an infinitely height-adjustable aluminium lower rail. The upper rail is fastened using mounting clips. Optionally, a pendulum safety device can be fastened at the bottom via a two-piece tension shoe to prevent the blind from swaying in a breeze. If battery operation is chosen, due to the narrow rail design, the slim external battery of 28mm is mounted in the recess behind the blind. Profile colour is available in white, anodised aluminium, anthracite, and black.

Size Ranges			Stack Height Chart		Dimensions
Model	FK	M-FK	Shade Height in cm	Stack Height in cm	
Max Width	230 cm*	220 cm*			
Max Height	260 cm	260 cm			
Min. Width	55 cm	70 cm			
Min. Height	30 cm	40 cm			
			50	max. 8.0	
			100	max. 9.0	
			150	max. 10.0	
			200	max. 11.0	
			250	max. 12.0	
			260	max. 12.2	

* depends on fabric width

Operation

Motorised Mode M-WKE with a battery motor of the Motion series or with a wired 24 V Somfy motor.

The low-voltage MOTION CENTRIO drive also offers all the benefits of a radio-controlled drive. It can run on a power pack or a slim external battery (without a power connection).

Operation is via remote control or Bluetooth via an app, and it can also be connected to a smart home system via the motion blind bridge.

Recharging is around every six months with a U-SBC cable.

Mounting Options

Screwed in

1) Installation in the window rebate or in the window recess using a mounting clip

FK top

2) In the frame or in front of the window recess using a wall bracket

FK top

Additional Options

1) Anti-Sway Tensioning

The pleated shade is stabilized against swaying with tension wires on both sides. This guides both the rail profile and the fabric.

Anti-sway system when installed with mounting clip

Anti-sway system when installed with wall bracket

Colors

Profiles

Depending on the system type, the operating rail profiles and the components used are available in various colors.

Plastic Parts

Operating handles, tension shoes, and end caps are color-matched to the four optional rail colors.

Pleated Shade Collection

Extensive color and pattern selection with more than 320 options

- Various light transmission levels—from light-filtering to room-darkening
- A wide range of materials and fabric types, from linen-look and crushed textures to sheer fabrics and jacquards
- Numerous theme and trend cards
- Available in flame-retardant options, B1 per DIN 4102, Trevira CS
- Color and quality assortments for different commercial applications
